President's Message

Greetings!

We are in the middle of our fall semester, and I hope you are enjoying some of the many courses that we are offering. We try to appeal to the varied interests of seniors in Aiken and the surrounding area, and we hope you are happy with the results. Just a few days ago I was talking to one of our members, and she said, "There are so many courses that I want to take. Unfortunately, I just don't have the time. I hope they will be offered in a future semester."

I'm happy to tell you that some of the popular courses that we are offering this session will be offered again in the future.

Our courses have been popular because we have listened to our participants. Whether you want a technical course because you are tired of having your grandchildren patiently (or not) show you something that you didn't know about your iPhone; or whether you have an interest in art or music or history, we try to satisfy your objective to learn something new.

Finally, allow me to express our appreciation for the spirit of cooperation from USCA for our program. The University provides staff, administrative support, classroom space, and technical support, and they do all of this at a cost that helps us keep our classroom charges to a minimum. Think about it, where else can you take a course taught by a college professor on a fascinating subject for just a few dollars? From an economic standpoint, the Center is one of the few educational opportunities that doesn't cost an arm and a leg. Good instruction, in a comfortable environment, among friends, all at a reasonable cost. Priceless!

Be Curious! Keep Learning! Stay Young!

Sincerely,

Raleigh Daniel, CLL President

CLL Technology Center to be Renamed in Memory of Ralph Dale

The electronics in the CLL Technology Center (computers, projectors, sound equipment, etc.), and the McGrath Tech Center and Senior Net before it, were maintained and kept operational for many years by technical expert Ralph Dale.

Ralph passed away last year. The CLL Board has voted to honor Ralph's memory by renaming the CLL Tech Center as the *Ralph Dale Technology Facility*, and has petitioned the University to make this official.
